

A Legacy of the Grip

Is often a run-down system. Weakness, nervousness, lack of appetite, energy and ambition, with disordered liver and kidneys often follow an attack of this wretched disease. The greatest need then is Electric Bitters, the splendid blood purifier and regulator of Stomach, Liver and Kidneys. Thousands have proved that they wonderfully strengthen the nerves, build up the system, and restore to health and good spirits after an attack of Grip. If suffering try them. Only 50c. Perfect satisfaction guaranteed by John S. Haggart and Will E. Collins & Co.

One of Lord Salisbury's Relics.

Lord Salisbury keeps a strange souvenir in his historic home at Hatfield. It is a stone, over a pound in weight, with which the window of his carriage was smashed at Dumfries, on October 21, 1884. His two daughters were seated with him in the vehicle, but all three escaped uninjured.

Coal in Australia.

There is a vast supply of coal in Australia which is almost unworked as yet. The total product at present is about 1,000,000 tons yearly, and the larger part of this output has been from the province of New South Wales. The resources of Victoria appear to be vastly greater. The Latrobe valley produces lignite of good quality and the supply is estimated at 80,000,000,000 tons.

Asia a World in Herself.

According to the National Geographic Magazine, Asia is the continent of continents—a giant land to which Africa is but an appendage and a Europe only an excrescence. Larger as to mainland than both Americas combined. Asia with her insular extension south-eastward might swallow the great landmass of Africa with Europe in addition. Of the 50,000,000 square miles of land on the face of the earth, Asia holds fully 15,000,000, or three-tenths of all—indeed, stretching as she does, from the equator to the very shadow of the pole and within a few degrees of half way around the globe, she is a world in herself.

WARRING WITH RAILROADS.

U. S. Officers Believe Government Is Being Held Up.

Chicago, Feb. 21.—A fight is on between officers of the United States army, stationed in Chicago, and officials of the railroads operating in the territory east of this city. The former accuse the railroad people of an attempt to hold up the government by charging for the assembling of cars at different points where troops are to be moved.

Colonel Bigger, chief of transportation of the department of the lakes, stationed in Chicago, says the railroad companies, having been hammered down to a cheap business at fair rates in spite of their pooling arrangements are now trying to even up by making charges against the government that are not exacted from the public. "The railroads now demand that the government pay for assembling cars at points where movements are to be made," said Colonel Bigger. "The charge averages not to exceed \$10 a car, and as we are constantly moving soldiers the exaction will be a big item to the government."

Got Robbers and Swag.

Muskegon, Mich., Feb. 21.—By the suspicious actions of young Daniel Williams, Jr., and his subsequent confession while in the sweat box, Bert Nicholson and Joseph Nault were arrested yesterday afternoon charged with burglarizing the vault of the Muskegon Savings bank on Feb. 9, when about \$400 in bills and five-cent pieces were carried away. The stolen swag was located by Chief Geraghty and the authorities in a hole underneath the alley in the rear of the Davies foundry boiler room. Nault, who is a veteran of the war with Spain, has also confessed, but Nicholson denies everything.

Inherits a Fortune.

Leslie, Mich., Feb. 21.—Henry Crane, a flourishing baker here, has fallen heir to a fortune left by a wealthy uncle in Australia. A newspaper report came to him a month ago, but it is now confirmed, that his bachelor uncle had died and had left \$7,500,000 to be divided among the heirs of his three brothers. As Mr. Crane's father and mother are dead, one-third of the fortune will belong to him and his two sisters, and his share will foot up about \$900,000.
